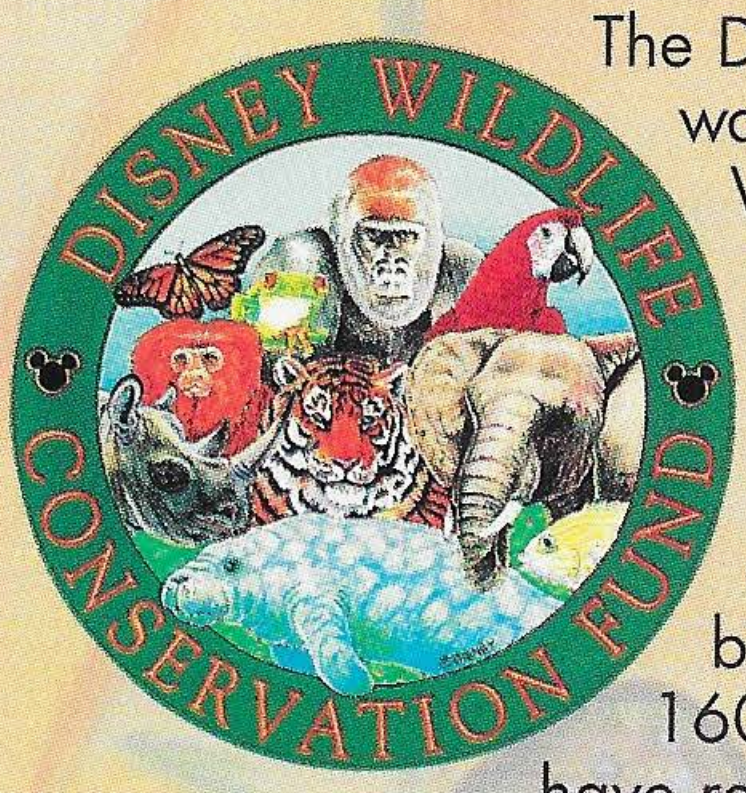
DISNEY WILDLIFE CONSERVATION FUND



The Disney Wildlife Conservation Fund was established with the support of The Walt Disney Company Foundation to promote and enable global wildlife conservation. This is done by working with scientists, educators and organizations committed to preserving the earth's biodiversity. To date, more than 160 field projects in 29 countries have received cash awards to help protect and study endangered and threatened animals and their habitats. You can join Disney in supporting these important efforts by contributing to the Disney Wildlife Conservation Fund where you see this symbol.

WE CAN ALL MAKE A DIFFERENCE

The way we see it, we only have one world. And as we've said before, it's a small one. But it's a world that we share with billions of other creatures. (Or that they share with us, depending on how you look at it.) And how we react and relate to these animals not only affects them, it has an impact on us. The way we live, what we eat and where we live has a whole lot to do with the way they live, what they eat and where they live. So, every day at *Disney's Animal Kingdom*™ Park, veterinarians, animal keepers, educators and Cast Members come together to discover the fun, new and exciting ways to keep the planet healthy for all its inhabitants. Here are some simple ways that you can help the conservation effort, too:

- Reuse and recycle products whenever possible.
- Create habitats for wildlife in your own backyard.
- Support conservation organizations through contributions and volunteerism.

"WE can ALL make a difference!"
